

X-MAS DIMMER

Technical specification

Operating voltage	12-36V
Power consumption	5W
Output count	8
Output connectors	Standard 2pin pluggable terminal with 5mm spacing
Output type	AC (2 polarities with individual PWM control of each polarity)
Output PWM frequency	>1000Hz for each polarity
Maximum output current per each output	0.5A
Control mode	DMX512, Stand-alone chases
DMX channels	16 (two per output)
DMX address selector	DIP switch
DMX connector	Wire-to-Board Header Pitch 2.54mm, Molex compatible
DMX isolated	yes
Status LEDs	3
Dimensions	141x65x20 mm
PCB Weight	70g
Enclosure	no, module only
Mounting option	4x mounting holes diameter 3.2mm
